

**Certification of a Whole Farm Plan
 City of Greater Shepparton,
 Campaspe Shire Council, Shire of Moira
 Application Form**

The following information is required by Council in order to assist with the assessment of your Whole Farm Plan. Please complete the form, and attach it to your plan for certification. Please supply six copies of your Whole Farm Plan.

Name of applicant: _____

Address of applicant: _____

1. Location of Property:

Lot Number: _____ LP/PS Number _____ Crown Allotment: _____ Section: _____ Parish: _____

Please supply a current copy of the Certificate of Title

2. Certification sought for? Please circle

Whole Farm Plan Other (please specify) _____

3. Details needed for Assessment of Run-off Volumes (please circle)

Property is within the irrigation region Property is located outside the irrigation region

4. Soil Type (please circle)

Permeable (eg fine, sandy soil) impermeable (eg heavy clay soil)

5. Land Areas

Total Area: _____ ha Existing Irrigated Area: _____ ha Proposed Irrigated Area _____ ha

6. Drainage Works will:

Increase the flow of water from the property	Yes*	No
Reduce the flow of water from the property	Yes*	No
Redirect the flow of water onto the property	Yes*	No
Redirect the flow of water from the property	Yes*	No
Alter the point of outfall of water from the property	Yes*	No

If Yes please provide details

(eg: water previously drained to the roadside drain but will now drain to the Community Surface Drain as per the Community Surface Drain Design).

7. Do all of the drains collect to a re-use dam? If they don't, what is the reason?

(for example: the majority of the drains collect to the re-use system, however it was not economically feasible to collect and re-use the south west section of the farm. This section will outfall to the Community Surface Drain).

8. Re-use system size

9. Suitability of re-use site

(for example; Soil maps show that the soil is a clay loam. When the system is constructed a test hole will be dug to ensure that groundwater does not leak in and that the soil is consistent to the depth required before the system is finally completed

10. Access to property and stock movement

(for example; the current access to the property ips to be retained and all stock movements can be contained within the property).

11. Native vegetation removal (please circle)

No native vegetation is to be removed

Removal of native vegetation is proposed and a separate application for this has been made

12. Building removal and/or construction

(for example; there is no proposal for the removal of any existing buildings nor the construction of any new buildings)

The Plan was prepared by

The estimated cost of the works is

_____ \$ _____
