NEW FOOD PREMISES

Under the Food Act 1984 all businesses and community groups that handle, pack, prepare or sell food must register with or notify their local council. This is to ensure all food businesses and community groups are preparing and selling safe food to the public. Each business and community group must also comply with the Food Safety Standards Code 3.2.2 and 3.2.3 which outline the requirements for safe food handling practices.

When starting a new food business the following steps must be taken:

- Contact the Shire of Campaspe and speak to an Environmental Health Officer (EHO) to discuss your proposal. It is recommended that a detailed plan of your proposed food premises be submitted to council. An onsite inspection at the proposed premises may also be required to further discuss your plans. This will assist the EHO to assess the suitability of your proposal and the premises. Prior to construction, the EHO will provide feedback in a report detailing what needs to be done to the premises in order for it to be suitable for the proposed activity.

- During the construction stage, we encourage you to contact an EHO if you have any questions about what is required. It is important that it is done correctly the first time to avoid any costly changes having to be made. For more information regarding design and construction requirements please refer to fact sheet ‘Requirements for Design and Construction of a New Food Business’ or the Food Safety Standards Code 3.2.2 and 3.2.3.

- Once the construction has been completed and the business is ready to commence operation, the EHO must undertake a final inspection to ensure all items have been addressed and that the premises complies with the Food Act 1984 and the Food Safety Standards Code.

- An Application to Register a Food Premises will need to be completed, signed and submitted to council with the prescribed fee prior to commencement. Once this has been received and processed by council, a Certificate of Registration will be issued and the business may open. Registration is renewed annually and the registration period is from the 1 January to 31 December each year.
