

Information Required For A Building Permit Application

DEMOLISH OR REMOVE A BUILDING

Complete this form & return it with the building permit application

The following is the minimum information that is required to be submitted for a building permit application.

Whilst the information required might seem excessive, please note that it is the Relevant Building Surveyors (RBS) responsibility to ensure that the application contains sufficient information to determine compliance with the Building Act and Regulations. It is not appropriate for the RBS to “mark-up” plans or accept notes on plans that are too general.

Where the RBS is not satisfied that the appropriate information has been provided they must not issue the building permit and should request further information.

Have you checked with the relevant officers if you require a Planning approval? (Note; where required, a building permit cannot be issued until a Planning Permit has have been approved).
