

# Breen Avenue Shared User Path

## Project Update - June 2023

The Breen Avenue Shared User Path project is currently out to tender. It is anticipated that there will be a number of good applications to assess when the tender closes to the public on June 30, 2023. There has already been substantial interest from prospective contractors, with many questions being asked about the construction of the shared user path.

Key aspects of the project that have been completed since the previous update include:

- Seek authority and planning approval for the works.
- Prepare and tender the construction works.

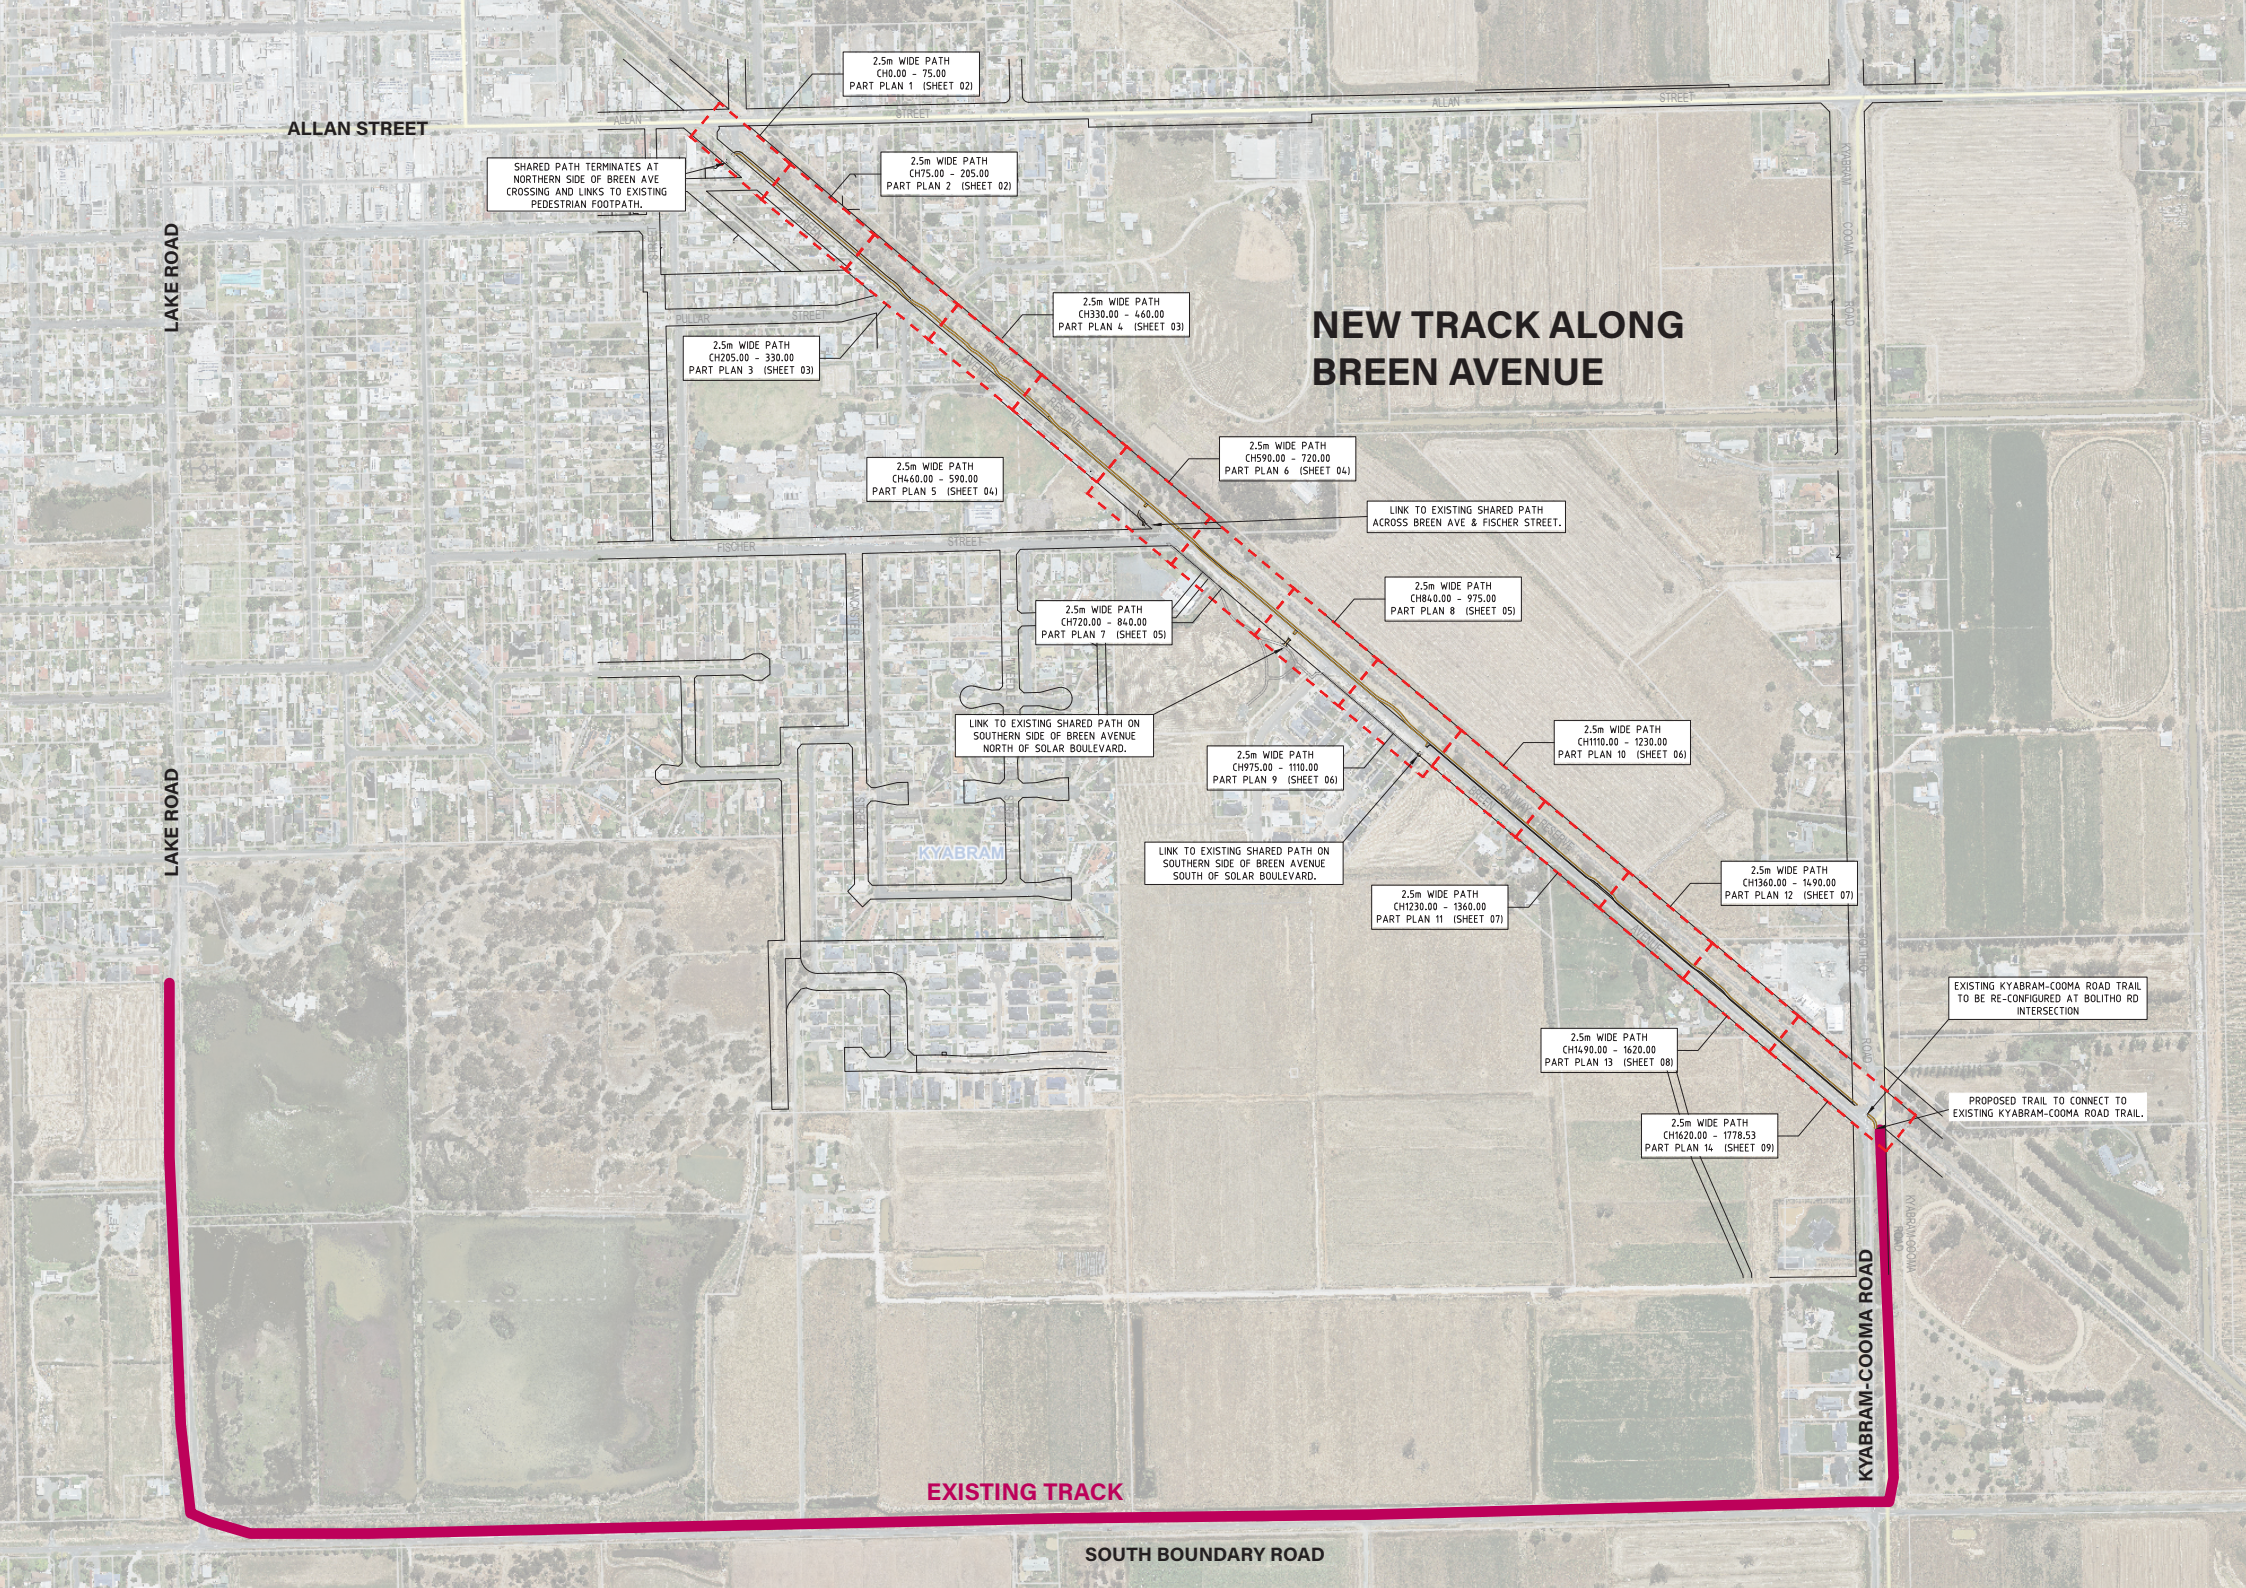

Over the next couple of months, Council will focus on completing the following:

- Assess and evaluate received tenders for construction works.
- Award a contractor for the works.
- Complete the Planning Permit process.
- Commence construction works. These are aimed to begin as of 1 September, 2023.
