## Purpose

To affirm Campaspe Shire Council's ('Council') role in international engagement and guide decision making in managing delegations and determining which international visits are appropriate for Council representatives to attend and/or host while maintaining current Sister City/Friendship relationships.

## Policy Statement

International relationships provide the opportunity to contribute to the diversity and cultural richness of the community. Further, these relationships enhance economic productivity and growth through support of tourism and major events, attracting skilled migration, fostering creativity in industries and increasing the capacity for new ideas, transfer of knowledge, skills and technology and provision of opportunities and access to international markets for trade in many industry sectors.

### 1. Current International Sister City/Friendship Agreements

All relationships should have a focus on cultural exchange and learning and create opportunities for local business.
