

# Stanhope

Campaspe: Thriving Together

## What we have heard

From our contact with the Stanhope community, face to face and by survey, we understand that the local priorities are:

### Healthy lifestyle

- Friendly, rich, and vibrant communities
- Broad range of activations to support healthy lifestyle and improve wellbeing.

### Help with growth

- Infrastructure that supports business growth and tourism
- Infrastructure that meets the specific needs, relevant to that community, including services such as internet, public transport, etc
- Must support modern living aspirations, health and wellbeing, and economic development.

### Zoning action

- Sustainable population growth
- Review and reform of zoning and planning requirements to support increased housing development in rural areas
- Respecting indigenous culture and their link to the land.

### Environment

- A healthy natural environment
- Innovative modern farming with sustainable practices. Also focussing on education on environmental issues eg. Recycling.

### Local support

- Local job opportunities, especially for young people
- Business: Support local business development
- Education: Improve online access to educational opportunities. Public transport structure to improve access to face-to-face education opportunities
- Employment: Public transport support access to work opportunities.

### Communication

- Increased transparency on Council decision making
- Keep the community updated using multiple communication tools and methods including a hard copy community newsletter.
