

Wyuna

Campaspe: Thriving Together

What we have heard

From our contact with the Wyuna community, face to face and by survey, we understand that the local priorities are:

Healthy communities

- Friendly, rich, and vibrant communities
- Broad range of activations to support healthy lifestyle and improve wellbeing.

Sustainability

- A healthy natural environment
- Strong practical management of the key environmental issues, including, water, weeds, feral animals
- Acknowledgement of partnerships with key external bodies eg GMW, DELWP
- Education and promotion of environmental issues, sustainable practises and joint responsibility.

Maintenance

- High quality community assets, such as roads, libraries, parks
- Road management is a key issue. Gravel and dirt road management is exceptionally important from a safety and economic perspective
- Key community facilities must be maintained to support community wellbeing, connectedness and economic development.

Youth opportunity

- Local job opportunities, especially for young people
- Creating pathways for young people to enter the agricultural industry
- Improve access to educational opportunities for young and old.

Zoning balance

- Protect farmland
- Review and reform of zoning and planning requirements to support increased housing development in rural areas
- Respecting indigenous culture and their link to the land.

Communication

- Meeting the changing needs of the community
- Improved customer service and response times
- Update the community using a number of communication methods including community newsletters and other channels.
