

Water supply for the agriculture sector: Mitiamo Pipeline

What is it?

An investment in water-saving infrastructure.

A 375 kilometre domestic and stock pipeline (located on the Campaspe and Loddon Shires) providing reticulated water supply to an area in excess of 75,000 hectares surrounding Mitiamo. The pipeline will directly service:

- 180 property owners and
- 87 homes in the Mitiamo, Tennyson and Dingee townships.

Why it's important

The Mitiamo pipeline project will save more than 1,000ml/annum, reduce current open channel water losses through seepage by 80%, expand the area accessible to water and provide certainty to agribusinesses.

What we're seeking

A federal co-investment of \$14.5m

- Victorian Government has committed over \$10m
- Business Case completed and project is investment ready
