

# Map My Town Echuca-Moama

## User Guide

### Start point:

Campaspe Regional Library, Corner of Hare & Heygarth Streets, Echuca.

### Travel Distances:

From the library it is approximately a 10 minute travel distance to the light green line and another 10 minutes to the dark green line. Travel distances vary depending on your mode of transport; be it walking, cycling or by wheelchair.

### Active Transport

Active transport includes non-motorised forms of transport, such as walking and cycling.

Not only can it benefit your fitness and physical health it can also improve your mental wellbeing, reduce greenhouse gas emissions through reducing car travel and lead to a greater sense of community and social interaction.

Given Echuca's favourable climate, flat ground and relatively quiet street network it's the perfect place to get around by walking or on your bike. As demonstrated by these maps many destinations are close to one another and an easy 10 or 20 minute stroll or ride from where people live.

Next time, why not walk or hop on your bike to get the shops, travel to work or meet your friends for coffee!?

### About 'Map My Town'

This map has been produced by the Shire of Campaspe and the Echuca community.

Residents have tested all travel times first hand and collected the necessary data to inform the final, printed versions of these maps. Travel times may vary slightly depending on individual travel speed, the distances marked on this map provide a general indication only.

By using the 'Map My Town' toolkit, available on the Victoria Walks website, Echuca invites other communities to organise similar activities to promote walking, cycling and travelling

by wheelchair in their own area.

Download the toolkit and view the case study on 'Map My Town, Echuca' at [www.victoriawalks.org.au](http://www.victoriawalks.org.au)

### Transport Connections Program

'Map My Town' was made possible by 'Transport Connections', a project funded by the Department of Planning & Community Development. The Echuca community played an important part by testing travel times firsthand and collecting information to inform the maps

### Mobility Maps

A series of mobility maps have been produced for towns in the Shire of Campaspe which seek to improve access for people with limited mobility. These maps aim to improve access to services and facilities, in particular for those with a disability by providing clear direction for the best routes of travel.

The Map My Town travel maps together with the Echuca Mobility Map are useful guides for someone with reduced mobility. Both resources are available on the Shire of Campaspe website for viewing and printing.
