

Breen Avenue Shared User Path

Project Update - November 2023

The Breen Avenue Shared User Path project is progressing toward construction. A contractor was awarded back in August and it was hoped that we would begin construction in September, however there have been many delays due to permits and approvals that were not expected.

This update is to provide notification of preliminary works beginning on the south side of Breen Avenue, as well as on Bolitho Road. These works will include the construction of footpath, pedestrian ramps to connect to the future SUP in the rail reserve and a pedestrian refuge island. The aforementioned works will begin from Monday, 13 November 2023.

Key aspects of the project that have been completed since the previous update include:

- Award of contractor.
- Complete Council Planning Permit Process.
- Prepare documents and work processes to adhere to governing authority requirements.

Over the next couple of months, Council will focus on completing the following:

- Receive all necessary permits and approvals.
