

Rushworth Lions Federation Park

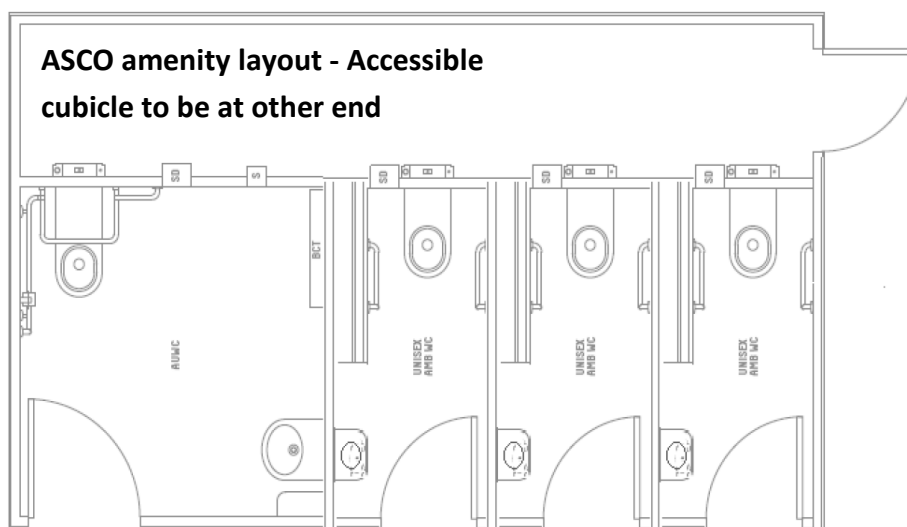

Public Amenity renewal

Campaspe Shire Council has awarded the construction contract to ASCO Group for the renewal of three public amenities, including Lions Federation Park in Rushworth.

The new fully accessible modular amenities will be fabricated and assembled in the factory and craned into position, minimising the time that the amenities are out of action for the community.

The facilities will be clad in a dark Colorbond to match the existing amenity.

Each of the sites have alternative amenities a short walk away. Council will install signs during construction advising of these alternative locations.

Council is also upgrading the parking facilities to include an accessible car parking space
