

Rushworth Rail Trail

Project Update - June 2023

The Rushworth to Murchison Rail Trail Project (Waranga section) will see the development of 11 kilometres of trail between the town of Rushworth and Chanel Inlet Road (shire boundary). It includes 1km of asphalt shared path at the Rushworth end and 10km of gravel trail from the Bendigo Murchison Road

Council anticipates obtaining a planning permit in July 2023, and will then tender the works in the following stages:

1. Native vegetation removal (Partnering with the VFA on the Fish Habitat project)
2. Bridge repairs (six to complete, including 2 x deck replacements and balustrading)
3. Asphalt path works at the Rushworth end (starting at High Street)
4. Gravel path construction (from Bendigo Murchison Road)

Council have also been engaging with key stakeholder groups on the interpretive and wayfinding signage design.
