Floods and your mental Health

It is normal to experience a range of physical, mental, emotional and behavioural reactions following an emergency or distressing event, including natural disasters.

If you, or someone you know, needs extra support during this time, you can speak with your local doctor, a mental health professional, a counsellor or a psychologist.

Helplines are also a good start when you need immediate support.

Find out more here:

Snakes and wildlife

There have been reports of snakes taking shelter in sandbags, if you see a snake leave it alone.

If bitten apply first aid and call triple 000

If you see animals that appear injured or caught in flood water call 136 186 or report via the Wildlife Emergency App

Agriculture Victoria

Is working with producers and industry in response to the continuing flood events across parts of Victoria.

Call Vic Emergency Hotline 1800 226 226 to report flood damage and losses and for urgent animal welfare needs

AGRICULTURE VICTORIA

Managing waste after flood

Floodwaters carry risks such as water-borne diseases. Proper management of floodwater and waste can help to reduce risks.

Floodwater is often contaminated by sewage from overflowing sewerage or septic systems, and by agricultural or industrial wastes and chemicals. EPA Victoria provides help guidance resources here:

www.epa.vic.gov.au/for-community/how-to/clean-up-after-a-flood
