Introduction

The Kindergarten Central Registration Application Guide details the eligibility and allocation criteria used in offering kindergarten places in kindergartens participating in the Campaspe Shire Council Kindergarten Central Registration Scheme.

This guide will be regularly updated and reviewed in line with Department of Education and Training (DET) kindergarten policy and reform changes.

Goal

The goal of Kindergarten Central Registration is to ensure that all children who turn or have turned three or four by 30 April in the year of attending a relevant kindergarten program have access to a kindergarten experience regardless of their gender, level of ability, religion, social or ethnic background.

This procedure is committed to the following Acts, Regulations and affirmations:

- Equal access for all children, based on the criteria set out in this policy
- Ensure the maximum number of children receive a kindergarten preference
- Ensure future enrolment data is collated and analysed for effective future planning of funded kindergarten places
- Provide a transparent, accessible and equitable process for allocation of offers of funded kindergarten places
- Compliance with Victorian and national legislation including disability discrimination, anti-discrimination and human rights laws
- National Partnership Agreement on Universal Access to Early Childhood Education
- Compliance with the Education and Care Services National Law and Regulations
- Adherence to the *Privacy and Data Collection Act 2014 (Vic)* and *Health Records Act 2001 (Vic)*
- Equal Opportunity Act Victoria 2010
- Reference to Department of Education and Training (DET): [Kindergarten Funding Guide \(2023\)](#)
- Department of Education Training & Municipal Association of Victoria: *Partnership Agreement (2018-2023)*
- No Jab, No Play – *Public Health and Wellbeing Act 2008*

Eligibility four year old (year before school) Kindergarten

In accordance with the Victorian Government Kindergarten Criteria, children are eligible for only one year of funded four year old kindergarten in the year before school (unless qualifying for a second year.) Children requiring a second year of funded kindergarten must be assessed by their kindergarten teacher as meeting the criteria set by the [Department of Education and Training \(DET\)](#). This process is completed by the educator at the kindergarten service your child attends. This is completed prior to the end of their current enrolment year.

To be eligible for four year old kindergarten a child must be four years of age or older by 30 April in the year they are to attend kindergarten.

Eligibility three-year-old Kindergarten

The Victorian Government introduced funded three-year-old kindergarten in Campaspe in 2021. Three-year-old kindergarten is offered for at least five hours per week from 2021 and scaled up to 15 hours per week by 2029. Some Campaspe services offer the full 15 hours however some services currently offer less hours due to capacity restraints. Please contact the Central Registration team for further information about individual kindergartens.

To be eligible for three-year-old kindergarten a child must be at least three years of age by 30 April in the year they are to attend three-year-old kindergarten. Please note that children will only be eligible to complete one year of funded three-year-old kindergarten. For children born between 1 January and 30 April, families have choice about whether their child will commence school in the year they turn five or in the following year which also reflects when their child will commence kindergarten. We encourage families who are considering early or late entry to kindergarten to refer to the DET kindergarten guide and seek advice from early childhood professionals to inform your decision. All children learn and develop in different ways and families are best placed to consider when is best for their child to commence kindergarten.

Children turning three between February and April in the year of attendance can submit an application and be offered a place at kindergarten, however children will not be able to commence in the program until they have turned three.

Early Start Kindergarten

Early Start Kindergarten provides up to 15 hours of kindergarten to eligible three year old children. This may require your child to be placed in a program for four year olds or a mixed age group.

Your child is eligible for Early Start Kindergarten if they are:

- At least three by 30 April in the year they will be attending a kindergarten program **AND**
- Your child is Aboriginal and/or Torres Strait Islander OR;
- Your family has had contact with Child Protection (or been referred by them to Child FIRST) OR;
- Your child is from a refugee or asylum seeker background

In extenuating circumstances children experiencing other vulnerabilities may be considered eligible following discussions with DET. Professionals are encouraged to speak with the Central Registration Team should you identify a child who would benefit from attending a kindergarten program.

Children must be three years old prior to commencing in an Early Start kindergarten program. Please note that families with children turning three between February and April in the year of attendance can submit an application and be offered a place at kindergarten, however children will not be able to commence in the program until they have turned three.

Child's Immunisation Status - No Jab, No Play, No Pay Legislation

Under the 'No Jab, No Play' legislation, the following evidence must be provided when completing the central registration application:

- A current immunisation statement from the Australian Immunisation Register (AIR); AND
- The statement must show that the child is up to date with all vaccines that are due for their age, or that they are able to receive.

Immunisation History Statements can be downloaded from your MyGov Account, by calling the Australian Immunisation Register on 1800 653 809 or by visiting your local Medicare office.

A valid medical exemption for children who are not able to be fully vaccinated includes:

- An anaphylactic reaction to a previous dose of a particular vaccine or
- An anaphylactic reaction to any vaccine component
- Has a disease which lowers immunity (such as leukaemia, cancer, HIV/AIDS, SCID) or;
- Is having treatment which lowers immunity (such as chemotherapy).

If a child has a medical reason they cannot be vaccinated, a GP or immunisation nurse would need to complete and sign a Medicare Immunisation Exemption Medical Contraindication Form and send to the Australian Childhood Immunisation Register (ACIR).

Only histories from the Australian Immunisation Register will be accepted – please **DO NOT** attach a statement from a medical professional, GP or your child's Maternal and Child Health Green Book.

'Conscientious objection' is not an exemption under the 'No Jab No Play' legislation.

How Places are allocated: Three and Four year old kindergarten

If there are an equal number of places to applications received, all applicants will receive an offer according to their first preference. If your first preference is unavailable you will be offered the next available preference in order. If there are more applicants than places available at a particular kindergarten, places will be allocated in accordance with the State Government and local priority of access guidelines.

Please note that three-year-old kindergarten enrolments will not be carried over to four year old kindergarten the following year. Families attending services will be required to submit a new central registration application each year. This is DET's policy position during the roll out of three year old kindergarten to ensure equal opportunity for four year old kindergarten to all children (not just those who attended three year old).

Priority of access criteria

The priority of access criteria used are in line with Victorian Government requirements regarding how kindergarten places must be allocated to children. It works to ensure that:

- a transparent, equitable and approved process is followed
- the maximum number of children receive a kindergarten place
- children who are eligible for priority places are allocated a place in their kindergarten of choice

We have a strong commitment to ensuring that, wherever possible, all children are allocated a place in a kindergarten service. We cannot, however, guarantee a kindergarten placement to every child.

Applications are processed in line with the priority of access guidelines below:

(Disclaimer: Priority access is based on current Legislation. These priorities are current at time of printing.)
